

Blackswan's security experts and 24x7x365 Cyber Fusion Center enable rapid response to minimize damage to both your bottom line and reputation. We work with your team to fill in capability, bandwidth, and resource gaps.

- 24/7/365 Staffed Security Operations Center (SOC)
- Eyes-on-Glass Expert Monitoring, Detection, and Response
- Breach Response and Forensics Support
- Compliance Adherence (NCUA, PCI, SOX, SOC, ISO, CMMC, NIST)
- Vulnerability Management
- Data Recovery and Investigative Support
- Threat Intelligence

We identify the right safeguards for protecting your data assets and help you outperform cybersecurity compliance requirements by offering customizable, comprehensive suite of:

## PREPARE

Identify your cyber risks, what needs to be protected, what safeguards are already in place and additional safeguards that should be considered to mitigate risk.

## COMPLY

Compliance Services are designed to ensure stakeholders' necessary regulatory requirements are being met while maintaining information integrity, confidentiality, and risk management.

## MONITOR & DETECT

Our Managed Security & Detection Services assist clients by managing and monitoring their security devices, systems, and overall security posture.

## RESPOND

Response Services are designed to support organizations in response and recovery from a cyber incident, limiting damage and reducing recovery time and costs.

## OUR PEOPLE MAKE THE DIFFERENCE.
